Minister for Foreign Affairs, Oman

MEMBERS

RANIL WICKREMESINGHE
Former Prime Minister,
Sri Lanka

SURESH PRABHU
Member of Parliament,
India

SHAHRIAR ALAM
Minister of State for Foreign Affairs,
Bangladesh

M J AKBAR
Former Minister of State
for External Affairs, India

RIVA GANGULY DAS
Secretary (East), Ministry of
External Affairs, India

ONG KENG YONG
Executive Deputy Chairman,
S. Rajaratnam School of International
Studies, Singapore

C RAJA MOHAN
Director, Institute of South Asian
Studies, National University of
Singapore

SHEKHAR SINHA
Former C-in-C, Western Naval
Command, Indian Navy; Member, Board
of Trustees, India Foundation, India

SUNAINA SINGH
Vice Chancellor, Nalanda
University; Member, Board of
Trustees, India Foundation, India

RAM MADHAV
Former National General Secretary,
BJP; Member, Board of Governors,
India Foundation, India

ORGANISING SECRETARY

SHAURYA DOVAL
Member, Board of Governors,
India Foundation, India

PREETI SARAN
Former Ambassador,
India

NAVDEEP SINGH SURI
Former Ambassador,
India

GAUTAM BAMBAWALE
Former Ambassador,
India

ROHAN GUNARATNE
Director General,
Institute of National Security
Studies, Sri Lanka

ALOK BANSAL
Director, India Foundation,
India

5th Indian Ocean Conference 2021

ECOLOGY • ECONOMY • EPIDEMIC

4-5 DECEMBER, 2021 | UNITED ARAB EMIRATES (UAE)

ABOUT THE CONFERENCE

The world today is grappling with the ill effects of a global pandemic. While nations are losing citizens and dealing with health challenges, economic challenges are no less devastating. It takes years for countries to rebuild themselves in the aftermath of such losses. However, how will individual economies survive if such impacts were to be felt every decade? Such is the magnitude of the dangers posed by climate change. Incessant burning of fossil fuels and use of oil is leading to a more rapid rise in average global temperatures. Growth of population, changing pattern of lifestyle, over-exploitation of resources and ever-increasing emission of greenhouse gases is disrupting the global ecological balance. Large scale urbanisation, crop intensive farming too are adding to the problem.

Following the trend of disruption, the consequences of changing climatic conditions too are not uniform. While small island nations, coastal regions and low-lying countries are facing the threat of extinction with the possibility of submergence in the next half a century, warming of air is leading to drought-like conditions and consequently causing bushfires. Changing fishing patterns are posing threats to the welfare of the fisherfolk community and a shift away from conventional sources of energy production to more non-conventional ones is realigning diplomatic realities.

The challenge of climate change is the most globalised one for an entire generation with the roots of the solution lying in local action. While the pandemic

has put large parts of the world on a halt for months, climate change will lead to gradual devastations. The need of the hour is for the stakeholders of IOR to move ahead with community based indigenous solutions to create a carbon neutral world.

To discuss and deliberate on these issues, India Foundation is organising the **5th Indian Ocean Conference - IOC 2021**, in **United Arab Emirates (UAE)**. The theme of IOC 2021 is **"Ecology, Economy, Epidemic"**.

ECOLOGY: Discussion on ensuring sustainable use of marine resources, effect of climate change on littoral & island nations, mitigating the effects of natural disasters, green energy solutions for sustainable future, protecting marine environment and reducing the impact of marine pollution in the Indian Ocean Region.

ECONOMY: Discussion on economic recovery and growth in the emerging markets and developing countries of the IOR post COVID-19, critical importance of trade routes in Indian Ocean, renewables as the new currency for Indian Ocean energy security, fostering greater economic cooperation in the IOR.

EPIDEMIC: Discussion on Impact of COVID-19 on Countries of the IOR, global fault lines and vulnerabilities of the healthcare system, socio-economic fallouts, regional cooperation and future challenges, cooperation in public health as a tool of diplomacy, espousing innovation in healthcare management.

SCHEDULE

4 December, 2021

- Pre-Conference Workshops
- Inaugural Session
- Cultural Program and Dinner

5 December, 2021

- Plenary Sessions
- Valedictory Session

IOCs IN THE PAST

4th Indian Ocean Conference (IOC 2019) held in Maldives

3rd Indian Ocean Conference (IOC 2018) held in Hanoi, Vietnam

2nd Indian Ocean Conference (IOC 2017) held in Colombo, Sri Lanka

2nd Indian Ocean Conference (IOC 2017) held in Colombo, Sri Lanka

2nd Indian Ocean Conference (IOC 2017) held in Colombo, Sri Lanka

1st Indian Ocean Conference (IOC 2016) held in Singapore

4th Indian Ocean Conference (IOC 2019) held in Maldives
